MIURA I COMPETITION

The fully adjustable comb in the Miura I Competition allows you to custom fit the stock to your personal preference.

The distinctive palm swell for both, right and left-handed shooters gives the Miura I Competition a real custom feel. With the adjustable comb set to your personal preferences and your hand wrapped around the palm swell, you'll swear the Miura I Competition was made for you.

Ported barrels are standard on the Miura I Competition. Barrel porting lets gas escape through the side of the barrel to help keep barrel climb to a minimum for a quick second shot.

A/681 DEFENSE

A/681 Defense in 20", 24" barrels are ported to keep muzzle climb down and fitted with a green, fiber-optic front sight for fast, sure target acquisition in low-light conditions.

A/681 Defense come standard with two picatinny rails for accessory mount: the front picatinny rail is factory-installed on the underside of the barrels and will accommodate targeting lasers or tactical lights.
