

# MIURA II

**MIURA II:** 12-GA and 20-GA, 3"  
stainless steel receiver, satin walnut

The over and under double trigger model is favorite of traditionalists. It's easier to quickly select which barrel to shoot first under hunting conditions. The Miura II standard can be had in three gauges (12, 20-GA and .410") in blue or stainless steel receiver. It has American walnut stock and forend, satin finishing, ventilated rib and a soft recoil pad. Chokes can be fixed or screw-in. The monobloc sides are highly polished and jeweled. All Miura II comes with mechanical extractors.

*Machine turned monobloc*

*Ventilated rib*

*Soft recoil pad*

*The tang mounted safety is automatically engaged when the gun is opened.*

# MIURA I COMPETITION

**MIURA I COMPETITION**  
12-GA and 20-GA, 3" gloss poly walnut

Miura I Competition over & under target gun is nicely balanced, quick handling and with stylish lines. The Miura I Competition features an adjustable comb stock with palm swell in both left and right-hand. It can be had in 12 and 20-GA, all with ported barrels, gold single selective trigger and automatic ejectors.

Miura I Competition has screw-in-chokes and manual safety.

*The fully adjustable comb in the Miura I Competition allows you to custom fit the stock to your personal preference.*

*The distinctive palm swell for both, right and left-handed shooters gives the Miura I Competition a real custom feel. With the adjustable comb set to your personal preferences and your hand wrapped around the palm swell, you'll swear the Miura I Competition was made for you.*

## FEATURES

### STANDARD FEATURES

**CHOKE TUBES:** IC&M (2F, 1M, 1IC, 1IM)

**BARRELS:** Fully ported 30"

**TRIGGERS:** Single selective trigger

**SIGHTS:** Brass bead and mid bead

### OPTIONAL FEATURES

**CHOKE TUBES:** Extended C, IC, M, IM and F

[www.eramantino.com.br](http://www.eramantino.com.br)

## MIURA I COMPETITION

**MIURA I COMPETITION**  
12-GA or 20-GA, 3" high gloss walnut

Miura I's receiver, like other quality guns, locks up by using tapered cones that engage recess machined into the monobloc. This provides a solid and safe lock-up every time and allows the gun to be opened and closed smoothly and easily. Elegant in style, the smooth, blued receiver sports a high-polish finish. The safety, positioned on the tang, also serves as a barrel selector.

The Miura I Competition's attractive stock is made out of American walnut. Palm swells are featured on all pistol grips to accommodate either right-or left-hand shooters, so be sure to stipulate your shooting style when ordering.

## SPECIFICATIONS

| ITEM NUMBER                | GAUGE | BARREL LENGTH | RECEIVER FINISH | BARREL FINISH | STOCK                 | CHOKES   | OVERALL LENGTH | AVERAGE WEIGHT |
|----------------------------|-------|---------------|-----------------|---------------|-----------------------|----------|----------------|----------------|
| <b>MIURA I COMPETITION</b> |       |               |                 |               |                       |          |                |                |
| 341                        | 12    | 30"           | Blued           | Blued         | Gloss Poly / Adj Comb | Screw-in | 47"            | 3,54 kg        |
| 342                        | 20    | 30"           | Blued           | Blued         | Gloss Poly / Adj Comb | Screw-in | 47"            | 3,32 kg        |
| 343                        | 12    | 30"           | Blued           | Blued         | Gloss Poly / Adj Comb | Screw-in | 47"            | 3,54 kg        |
| 344                        | 20    | 30"           | Blued           | Blued         | Gloss Poly / Adj Comb | Screw-in | 47"            | 3,32 kg        |

Ported barrels are standard on the Miura I Competition. Barrel porting lets gas escape through the side of the barrel to help keep barrel climb to a minimum for a quick second shot.

Flush and extended, screw-in-choke tubes in 12 and 20-GA are available in C, IC, M, IM, and F.

# MIURA I SUPREME AND LUXE

**MIURA I SUPREME**  
12-GA and 20-GA, 3" high gloss walnut

From the standard Miura I field gun to the elegant Miura I Supreme, there's something for everyone in the Miura I line. All Miuras feature a blued or polished stainless steel receiver and jeweled monobloc sides. Recesses on the monobloc engage trunnion pins on both sides of the receiver and pivot on them to allow smooth, solid and secure opening and closing.

The Miura I Supreme comes with American walnut stock and forend with soft rubber recoil pad. The Miura I Supreme is available in Monte Carlo style stock, screw-in choke tubes. The Miura I Luxe comes with 5 extended screw-in choke tubes: IC&M, F, IM and CL. The single selective trigger and automatic ejectors make the Supreme and Luxe perfectly suited for competition or hunting.

*The Miura I Supreme comes with auto-ejectors for quick ejection of empty shells.*

# MIURA I OUTBACK

**MIURA I OUTBACK** - 12-GA, 3"  
satin walnut

Miura I Outback, this functional over & under has 20" barrels making the gun easy to maneuver and quick to shoulder, whether it's brought to play in tight cover or while protecting your home. Miura I Outback comes with fixed iron sights.

The Outback feature a box-lock type over & under action completes with machine-turned monobloc sides. Recesses on either side of the receiver engages trunnion pins, on which the barrel pivot, allowing for smooth, solid and secure opening and closing. The barrels utilize extractor or ejectors. Optimum utility is achieved with the Outback's open sights allowing quick target acquisition and precise aim. Screw-in-choke tubes are included with each Outback.

The Outback comes in either 12 or 20-GA, features 3" chambers and is offered in a variety of finishes. Whether it's traditional blued steel with American walnut stock, or polished nickel with a black or satin walnut stock, there are few needs that the Outback won't handle reliably and efficiently.

The receiver is precision machined to exacting tolerances to ensure that they will hold up year-after-year no matter how much it's used. A/681 is even fitted with a removable firing pin bushing to protect the receiver from firing pin wear, a feature found on the world's best side-by-side.

Side-by-sides feature a tang-mounted safety switch, which is automatically engaged when the gun is broken open.

# A/681 SUPREME IN 20"

**A/681 SUPREME** - 12-GA or 20-GA, 3"  
blue, gold single trigger, satin walnut

The side by side shotgun in single trigger model, originally developed as traditional double-trigger models, the single trigger models with gold-plated triggers provide a competitive edge. A/681 is available in blue and blued finish with a corrosion-resistant, stainless steel receiver. The single trigger models in 12 and 20-GA are offered in traditional satin and high gloss walnut stocks and forends, with rubber recoil pads.

*All of A/681 double-barrel models come standard with extractors.*

*Single trigger models feature a gold-plated single trigger for quick follow-up shots.*

# A/680 LUXE

**A/680 LUXE - 12-GA, 3"**  
polished nickel, high gloss walnut

The classical blued receiver and barrels are a favorite of traditionalists, while more progressive shooters reach for the stainless receiver and its corrosion resistance. The polished, nickel-plated model, quite the rage in frontier days, is still eye-catching at the range. No matter which one you choose, you will have a fine firearm in your hands.

In 20" and 24" length barrel A/680 is available in 12, 20-GA and .410".

**A/680 LUXE - 12-GA, 20-GA or .410", 3"**  
polished stainless receiver, high gloss walnut

## FEATURES

*An attractive trigger guard gives the A/680 a more refined appearance, with smooth curves that complement the double trigger.*

# A/680 DEFENSE

**A/680 DEFENSE** - 12-GA, 24", 3"  
double trigger, matte black synthetic

A/680 double trigger models, in 20" and 24" are outfitted with a green, fiber-optic front sight and come standard with two picatinny rail accessory mounts: one on upper rib for red-dot sights and a second factory-installed rail under the barrels for attaching targeting lasers or tactical lights. All metal surfaces are finished in matte blue and come complete with non-reflective matte black synthetic stocks and forends. A/680 defense with their traditional break-actions and short efficient designs are easy to load and quick to deploy.

A/680 defense comes with double trigger.

The A/680, A/681 Defenses in 20", 24" barrels are ported to keep muzzle climb down and fitted with a green, fiber-optic front sight for fast, sure target acquisition in low-light conditions.

# PUMP SECURITY SHOTGUN

**PUMP LESS-LETHAL** - 12-GA, 3", 20" length (4+1 or 7+1 shots 2 3/4")

There is even an optional security gun that police and military the world over reach when the chips are down and flawless tactical decisions. For "less-lethal" application the shotgun is available with a blaze orange synthetic stock and forend. The guns are available in polished or matte nickel finish, or black receiver and blued barrel. The trigger group is independent, easy to remove and fully interchangeable. To manual unload the magazine it is necessary to press the cartridge catch that is located on the left side of the loading gate.
